### Book Care True/False Activity

Instructions: Cut off the bottom half of the page at the dotted line. If the statement is a good way to treat books, paste it under the True (or Good) side of the page. If the statement is not a good way to treat books, paste it under the False (or Bad) side of the page.

True—Treat books this way!	False—Do not treat books this way!

.....

Always wash your hands before reading library books.	Leave your library books down where younger brothers or sisters can get them.
Take your library book to read in the bathtub.	Instead of using a bookmark, just fold the page down.
Always use a bookmark.	Bring library books back on time so others can use them.
I'm not responsible for my book if I let a friend borrow it.	It's not a big deal to throw library books.
Carry books in a backpack or book bag to protect them.	Place books where pets cannot reach them.
Writing in library books is OK if someone else has already done it.	My book can usually be repaired if I accidentally rip it just a little.
